

Store impressions are made in an instant.

We visualize the usual "customer," "employee," and "store" moments and turn them into hints for growth.

Store Survey Service

Purpose of the Survey: Supporting improvements in store operations

knowing the reality is most important. First, AJIS's research services can help you understand the issues.

Reality

- Understand the actual situation
- Comparison/analysis

Issue

- Organize issues
- Set up initiatives

Solutions

- Improve operations
- Review disincentive
- Develop action plans

AJIS, which boasts an overwhelming track record in inventory and merchandising services in Japan, proposes a "problem-solving research service" that leverages its expertise. We visualize store issues in real time to reduce lost chances.
